Summary

This quarter we cut the time it takes to answer customers and finished preparing a new service. The table shows the key numbers; the next pages cover each item.

Item	Q2	Q3	Change
Customer questions	1,240	1,180	-5%
Average reply time	6.2 h	3.9 h	-37%
Satisfaction	4.1	4.4	+0.3

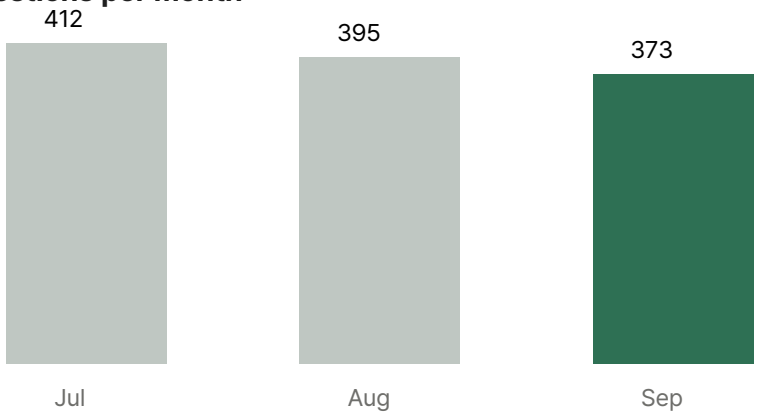

1. Faster replies

We wrote answers to the 30 most common questions in advance and split the work by weekday. The average reply time fell from 6.2 to 3.9 hours. Weekend questions still pile up on Monday morning, so next quarter we will add a weekend shift.

2. New service

Two pilot runs helped us fix the screens and the guide. 34 of the 40 pilot users said they would use it again. The public launch is set for the second week of November.
